**TUCKER ELLIS & WEST LLP COMMENTS ON INCENTIVES RECEIVED
BY WILLARD & KELSEY SOLAR GROUP LLC**

Cleveland, Ohio – (June 9, 2009) Today Governor Strickland announced the first round of projects to be funded by the Ohio Advanced Energy Jobs Stimulus Program. As part of the non-coal portion of this announcement, Willard & Kelsey Solar Group, LLC (“Willard & Kelsey”) is set to receive a \$10 million loan to put two thin film solar panel manufacturing lines at its current production facility in Perrysburg, Ohio, eventually employing over 3,500 people.

Tucker Ellis & West LLP (“TEW”) has partnered with Willard & Kelsey since December of 2007 and currently serves as the company's general counsel, handling company legal matters as well as representing Willard & Kelsey in Columbus, in front of agencies such as the Department of Development and the Air Quality Development Authority.

"We are proud to be a part of such an exciting project, one that will bring both new technology and manufacturing jobs to Northwest Ohio" said Matt Cox, Vice-Chair of TEW's Public Law & Finance Group. "The Governor and his staff have really worked overtime to make sure Willard & Kelsey has every resource available to become a successful commercial operation" Cox concluded.

With this round of funding, Willard & Kelsey has received almost \$20 million of incentives from the State of Ohio over the past 18 months, including loans, job training dollars and job creation tax credits.

Tucker Ellis & West LLP is a full service law firm with over 140 attorneys with offices in Cleveland and Columbus, Ohio, Denver, Colorado, and Los Angeles and San Francisco, California.
