

Life Sciences Litigation

Overview

The Tucker Ellis Life Sciences Litigation Group represents and counsels clients in the local, regional, and national defense of medical device and pharmaceutical liability cases. Our exceptional lawyers, paralegals, and nurse paralegals work at the forefront of science and medicine with nationally known experts to defend litigation and assist our clients with regulatory matters, such as developing appropriate warnings and evaluating pharmacovigilance practices. In 2020, legal analytics firm Lex Machina rated Tucker Ellis third in the number of non-MDL product liability cases handled for defendants between 2015 and 2019. Our scope of clients, our national leadership roles for those clients in headline litigation, and our exceptional trial attorneys make ours an outstanding practice.

We routinely litigate cases throughout the United States, and have tried to verdict cases for our clients in dozens of states. We serve as national coordinating counsel as well as regional and local counsel on behalf of our clients. Experienced in multidistrict litigation, we serve as liaison defense counsel in numerous state MDLs, including California-coordinated proceedings, in the defense of large groups of cases. Our team also assists foreign lawyers in the defense of cases and class actions filed outside the United States.

We have obtained significant appellate and trial court decisions limiting the liability of our clients, particularly in obtaining broad-based decisions in the preemption and *Daubert* areas, and obtained a major victory for a client in the United States Supreme Court.

As part of its 9th Annual LMG Life Sciences Americas Awards, LMG Life Sciences named Tucker Ellis the 2021 Product Liability Firm of the Year. Our practice is ranked in The Legal 500 United States (Product Liability, Mass Tort and Class Action – Defense: Pharmaceuticals and Medical Devices) and at the Nationwide level in Chambers USA in the area of Product Liability & Mass Torts: The Elite. Clients comment that “Tucker Ellis is a very responsive and practically minded firm. They engage in strategic and critical thinking and come up with practical solutions to issues.” Other clients praise our “very strong” team for our understanding of client needs and preferences, responsiveness, and business acumen. “They provide diverse and exceptional teams” and “think strategically, are excellent communicators and consistently deliver results aligned with business strategy.”

OUR TEAM:

- Routinely tries cases across the United States
- Coordinates and supervises the defense of major medical device and pharmaceutical companies on a national and regional basis

- Has extensive MDL experience as lead defense counsel
- Represents manufacturers and distributors in product recalls
- Selects and develops technical experts and coordinates scientific studies
- Has significant experience in Medicare reporting and compliance
- Has successfully challenged plaintiffs' experts on "junk science" grounds
